Coordinate System: Africa Albers Equal Area Conic
Projection: Albers
Datum: WGS 1984
False Easting: 0.0000
False Northing: 0.0000
Central Meridian: 25.0000
Standard Parallel 1: 20.0000
Standard Parallel 2: -23.0000
Latitude Of Origin: 0.0000
Units: Meter

INTRODUCING THE EAST AFRICAN FEDERATION

The East African federation would be home to many, many ethnic and linguistic groups, too many to meaningfully list. While this diversity has the potential to incite conflict, a shared colonial past means that most citizens will be able to communicate in the Federation's official language: English.

The Federation would be home to approximately 145.5 million citizens, second only to Nigeria. Like the rest of the world, already sprawling areas such as Nairobi, Dar es Salaam and Kampala are slated to grow even more in the future.

Population per Km
High : 152517
Low : 0

The Federation would be able to boast of a nominal GDP worth US\$ 147.5 billion, all while using the common East African Shilling. Despite this wealth, severe poverty gaps would persist, particularly in the sparsely-populated rural areas of the federation.

Poverty Gap
>10%
